

COS 323 Checkpoint 2: Project Contract

Due January 7, 2014

For this checkpoint we would like a detailed outline or contract of what you will deliver in your project. For each part of your project, we would like you to specify what percentage of points you feel should be allocated to it. In addition we would like you to specify which team member(s) will be responsible for each section of your project. Each team member should be responsible for roughly an equal number of points.

There will be no penalty if you do not turn this in on time or at all. However, if you do submit this contract, we will use it as part of a rubric to assess your assignment. If, in the process of completing your project, you make decisions that warrant changing your contract, please feel free to upload an update. This contract is also to be used to mitigate concerns about team member contributions and fairness in grading. In addition to how you feel your project should be assessed, we will also be assessing projects relative to each other.

What to submit

1. Outline or Contract of Deliverables for your project
2. Percentage of points out of 100 that each section of your project is valued
3. Responsibilities of each team member in the contract
