

PICASso: Scientific and Technical Communication

Program in Integrative Information, Computer and Application Sciences

.....

PICASso invites you to a series of **workshops on scientific and technical communication** designed specifically for graduate students engaged in computationally oriented research...

- Writing Workshop I
Monday, May 3, 2004, 1:30 PM-3:30 PM
Form and Function: The Elements of a Scientific/Technical Research Article
- Writing Workshop II
Tuesday, May 4, 2004, 1:30 PM-3:30 PM
The Theory and Practice of Writing an Effective Abstract
- Writing Workshop III
Wednesday, May 5, 2004, 1:30 PM-3:30 PM
Making Sense of the Science: Cohesion and Coherence in Scientific and Technical Writing
- Presentation Workshop
Thursday, May 6, 2004, 1:30 PM-3:30 PM
Effective Scientific and Technical Presentations

The first three workshops will be led by Dr. Judith Swan, a Princeton Writing Program lecturer who leads similar workshops at scientific institutions both nationally and internationally. The fourth and final workshop will focus on scientific and technical presentation and will be led by staff from the McGraw Center for Teaching and Learning. Examples will come from the literature on computational research and graduate students' own works-in-progress.
