

## Errata for *An Introduction to Information Retrieval*, Example 18.4

Example 18.4 in Chapter 18 of *Introduction to Information Retrieval* contains significant errors. The matrix that is labeled  $C_2$  is actually  $\Sigma_2 * V^T$ , and the matrix that is labeled "truncated  $(V)^T$ " is actually  $\Sigma_2 * (V'_2)^T$  - the truncated version of  $\Sigma_2 * V^T$ . There could be other problems I haven't discovered.

The actual  $C_2$  is:

Input:	$(U'_2)$	*	$\Sigma_2$	*	$(V'_2)^T$	=
	$\begin{pmatrix} -0.44 & -0.3 \\ -0.13 & -0.33 \\ -0.48 & -0.51 \\ -0.7 & 0.35 \\ -0.26 & 0.65 \end{pmatrix}$		$\begin{pmatrix} 2.16 & 0. \\ 0. & 1.59 \end{pmatrix}$		$\begin{pmatrix} -0.75 & -0.28 & -0.2 & -0.45 & -0.33 & -0.12 \\ -0.29 & -0.53 & -0.19 & 0.63 & 0.22 & 0.41 \end{pmatrix}$
